

Table 1

Chris's Pros	Chris's Cons	Chris's Changes	Chris's Comments	Chris's Screenshots and Links
Initially I like it	No Catalog Covers. These catalogs are still used but very outdated and are not be included anywhere in the new site	Only Items that have a Price should be displayed	Have items that are sold in a "Archive" tab, but still can be searched with the available inventory so people can see that we did have them. People can offer us items. Sold items must always be at the bottom of any search results.	For example: https://www.glabarre.com/category/Japan Stocks and Bonds/c150pg
I do like most of the fonts used	Use a new logo.	Maybe a totally new title/logo like "Art of the Market" or "LaBarre Galleries". Will send when needed.	I am still a fan of something general that a 12-year-old can think about. Ex: Artofthemarket.com	
				
				
I do like the format	Search should be more noticeable.	Have the search bar big and bold. If not, have it big and bold when hovering over it. See image at right.	Search boxes is what collectors go to first	
Shop by Era. Like it	Will everyone understand that function?	Or maybe by Decade	Utilize all search filters that ha.com has.	
Simplicity Yes	Have more assistance features	More phone numbers and ways to contact us	Email, Landline, Cell, Fax, WhatsApp, Teams and any other "help" features that come down the road. See to the right
